estimate, 708,452 dollars and there remainsthe balance of three millions of dollars, to be paid into the common treasury, in the course of the present year.

The committee find that, for reasons stated in the resolve of Congress, of the 27th of April, 1784, there yet remains a moiety of the requisition for eight millions of dollars, and the whole of the requisition for two millions of dollars, to be applied to the use of the United States, before any new requisition ought to be made—They are therefore of opinion, that the states be called upon to make actual payment of three quarters of the remaining moiety aforesaid, in the course of the present year.

The committee have not been able to obtain information how many states have complied with the resolution of February 17th, or that of April 18th, 1783, relative to a rule, for quotaing federal requisitions—They are therefore of opinion, that the several states which have not decided on that subject, be again solicited to come to a decision thereon, and to send forward the same, as a measure necessary to enable Congress to effect a settlement of accounts with the several states, and to apportion to each a just quota of the public expences, but in the mean time, as the the public faith renders it the duty of Congress to continue their annual demand for money, the committee are of opinion, that in the apportionment thereof, the several states should be quotaed agreeably to justice, on the best information Congress may from time to time have upon the subject. And upon this principle recommend to Congress, that the said sum of three millions of dollars, be quotaed upon the several states as follows, viz.

DOLLARS: New-Hampshire, 105,416 Massachusetts, 448,854 Rhode-Island and Providence Plantations, 64,636 Connecticut, 264,182 New-York, 256,486 New-Jersey, 166,716 Pennsylvania, 410,378 Delaware, 44,886 Maryland, 283,034 Virginia, 512,974 North-Carolina, 218,012 South-Carolina, 192,366 Georgia, 32,060 3,000,000

Which sums, when paid, shall be passed to the credit of the states respectively, on the terms prescribed by the resolution of Congress of the 6th day of October 1779, and

together with the monies relied on to discharge the aforesaid deduction of 708,452 dollars, be applied in conformity with the several appropriations in the preceding part of this report, giving preference according to the order in which they are stated in the estimate.

As more than two-thirds of the sum called for is to be applied to the payment of interest on the domestic debt; the committed are of opinion, that the several legislatures be allowed so to model the collection of the sums called for, that one third of any sum being paid in actual money, the other two thirds may be discharged by discounts of interest with the domestic creditors. And so keeping the evidence of interest to be discounted, the holders of the loan office certificates shall be at liberty to carry them to the office from which they issued and the holders of other certificates and liquidated debts of the United States, to carry the same to the loan-office of that state where they are inhabitant, or if a foreigner to any loan-office within the United States, and to have the interest due thereon, settled and certified to the last day of the year 1783 4.

That the commissioners of the board of treasury cause to be made a bank-paper, and thereon to be struck the blank form of a certificate, which shall evidence the interest due as aforesaid, and shall transmit to the several loan-officers, a sufficient number of the same. That the said commissioners furnish the several loan officers, with such checks and instructions, as they from time to time shall judge necessary, to prevent counterfeited certificates of debts from obtaining a settlement of interest, and to the receivers of federal taxes, such checks and instructions as may enable them to detect counterfeit evidences of interest, and thereby to avoid receiving them in discharge of taxes; which certificates of interest being parted with by holders of the principal, shall be deemed evidence that he has received satisfaction for the same, and therefore shall be receivable from the bearer in lieu of money in the proportion aforesaid, in any other state in the union, as well as in the state in which they were issued. That the state receiving such certificates and paying the same into the public treasury, shall have credit therefor in the proportion aforesaid; which payment shall be considered as a discharge of the interest due on the domestic debt, in the proportion that each state avails itself of the said certificates of interest. And where

loan-office certificates issued after the first day of March 1778, shall be presented to the loan-officer, they shall be reduced to their specie value, conformably to the resolutions of Congress of June 28th, 1780, that specie value expressed on some part of the certificate, and the interest thereon settled and certified as in other cases.

The committee find that the revenue system of April 18th, 1783, hath been adopted in whole or in part, by eleven states; and being of opinion that it is expedient for Congress still to rely on that plan, which has been so long under reference to the states, and which after repeated consideration in successive Congresses, has been found preferable to any other system, and conceived necessary to the establishment of the public credit, the committee submit it to Congress earnestly to recommend to such of the eleven states as have complied only in part, to adopt the same compleatly; and to the two other states, who have not adopted the plan either in whole or in part, to pass laws as soon as may be in conformity thereto.

The sum quotaed upon the states in the present demand, by providing for the deficiencies of former years, exceeds the sum the states were called on for during the last year; but the greater proportion of discount now admitted, will render it less impoverishing to the citizens.

As a motive for the chearful payment of the sum now called for, as well as of the arrearages on that of April 27, 1784, the committee are of opinion that the states be reminded, that Congress have passed an ordinance for the survey and sale of the western territory of the United States, and that the proceeds thereof will be applied as a sinking fund to extinguish the principal of the domestic debt. Future requisitions for interest on the domestic debt, will therefore be reduced in proportion as this fund may be rendered productive.—And while on this subject, the committee cannot forebear mentioning that of the states; claiming western territory, Massachusetts alone has made the expected cession during the last year, they are therefore of opinion, that the subject be again presented to the attention of the state, which have not complied with so reasonable a

proposition; and that they be once more solicited to confide with candour and liberality, the expectations of their sister states, and the earnest and repeated applications made to them by Congress on this subject.

As a Motive for the chearful Payment of the Sum now called for as well as of the Arrearages on that of April 27, 1784, the Committee are of Opinion that the States be reminded that Congress have passed an Ordinance for the Sale & Survey of the Western Territory of the United States and that the Proceeds thereof
